INTRODUCTION

1.1 Background

The River Ganga has been recognized as being completely intertwined with the religious and cultural tradition of India and thus is not only a life giving water artery but also nourishes and renews India's cultural and religious traditions. The river is thus a cultural stream embedded in the very soul of India.

The twin issues of pollution and anemic flow have negatively affected the cultural sites and activities along the river banks. While prominent sites and festivals are well known many lesser rituals and sites of local significance are routinely ignored and thus fading from public memory. The cultural influence zone narrative of the river extends beyond its banks and many heritage architecture facets have gone unnoticed or unrelated to the river. Knowledge of the sublime aspects of the river can influence public attitudes as well as proposed interventions.

INTACH, interested in carrying out a documentation of Natural Heritage, Intangible Cultural Heritage and Architectural Heritage along the main stem of Ganga River [Hoogly] in a 10 km wide corridor [5 km wide on either bank], has awarded the work of Architectural Heritage (AH) documentation in the Districts of Nadia, Hooghly, North 24 Parganas, South 24 Parganas, Howrah, Kolkata, Purba Medinipur as per given formats to 'The Designers', which in turn has formed a team of architects and allied professionals to carry out the field work and prepare report on the same for submission to INTACH.

Although the work has been scheduled from 1st January 2020, the MOU in this regard was signed on 14th January 2020 and fund was released on 17th February 2020, following which the field work was commenced.

However, due to the ongoing unprecedented COVID 19 pandemic and the lockdown that was put to effect from 22nd March 2020, the field work had to be suspended for compliance with the Govt. order as well as the health risks involved and the Preliminary report was submitted in October 2020 with the work carried out prior to the lockdown as field research and the rest as desk research. In this Final report further work has been done and selected sites have been visited.

1.2 Scope of Work (Architectural Heritage Documentation)

Heritage sites are to be located from various secondary and primary sources and thereafter list them as per the detailed format provided for in the Annexure.

1.2.1 The detailed scope entails:

- Secondary/ desk research [Dist. Gazetteers, other relevant research, archival material]
- Cover the points in Architectural Heritage Format [see Annexure I]
- Study the reference reports provided by INTACH

1.2.2 Coverage of Work

ARCHITECTURAL, ARCHAEOLOGICAL, OTHER BUILT HERITAGE

Visual documentation of and report preparation on architectural/ archaeological/ other built heritage within 5.0 kms of River Bhagirathi-Hooghly in the following districts of W.B.:

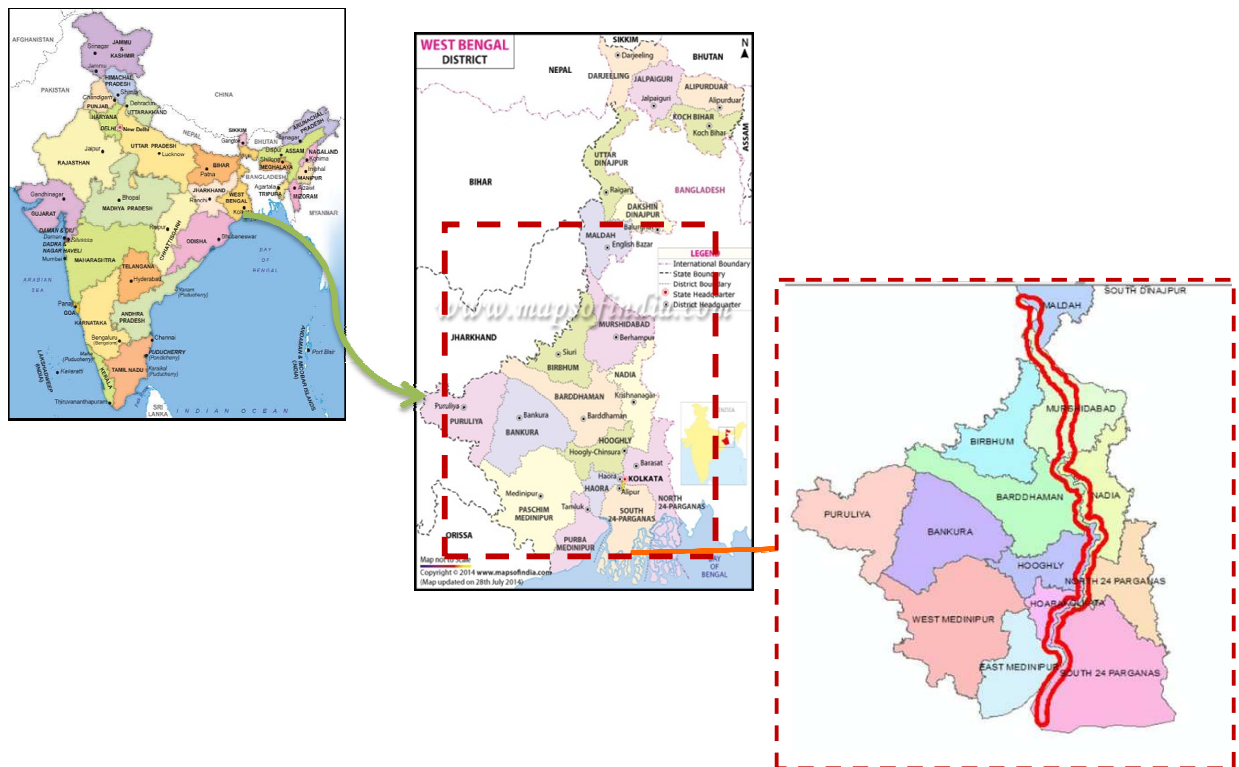

Fig. 1 Location of the Gangetic plains of Lower Bengal with respect to India

1. Nadia,
2. Hooghly,
3. Howrah,
4. North 24 Parganas,
5. Kolkata,
6. South 24 Parganas and
7. East Midnapore

Note:

- Malda, Murshidabad and Burdwan (or Bardhaman) are not in the scope (neither field work nor desk work) and not be included in the final report submitted by us.
- Documentation Template as per Annexure III of Inception Report on Ganga Cultural Documentation

1.3 Key Aspects:

- i. **Project Name:** Ganga Heritage Documentation
- ii. **Section:** Documenting **Architectural, Archaeological, Other Built Heritage**
- iii. **Schedule:** Time frame Plan of Action for 12 months
- iv. **Total No of Districts:** 07
- v. **Buffer limit:** 5 Kms.
- vi. **No of Phases:** Three
- vii. **Phase I:** ONE District to be covered, i.e. Part of the Districts along river Bhagirathi-Hugli i.e. South (Dakshin) 24 Parganas.
- viii. **Phase II:** THREE Districts to be covered, i.e. Part of the Districts along river Bhagirathi-Hugli i.e. North (Uttar) 24 Parganas, East (Purba) Medinipur & Nadia
- ix. **Phase III:** THREE Districts to be covered, i.e. Part of the Districts along river Bhagirathi-Hugli i.e. Hooghly, Kolkata & **Howrah**

1.4 Historical Background of the District

The historical backdrop of Howrah goes back to the period much before the British Rule in India. Howrah was a part of the erstwhile Bengal kingdom, known as Bhurshut. This place has been referenced by the explorer from Venice, Cesare Federici. He had headed out to India at some point between the long stretches of 1565 and 1579. He had referenced in his journal going

back to around 1578 about a place known as Buttor (Betor) - a commercial port where large ships carrying goods were able to enter.

The great Bengali poem 'Manasamangal', written by poet Bipradas Pipilai in the year 1495, also has the mention of this place. The mention of the modern-day places of Howrah, Salkia, Ramakrishnapur, Kasundia and Bator can also be found in the petition sent by Bengal Council of East India Company in 1713 to Aurangzeb, Farrukhsiyar, upon the latter's accession to the throne in Delhi. The petition was sent asking to settle some disputes of these places. These places were also mentioned in the Consultation Book of the Bengal Council published on 4th May 1714.

Most parts of the present-day district came under the zamindari of either Burdwan or Muhammad Aminpur by 1728 and continued to be the same till the Battle of Plassey in the year of 1757 which changed the fate of Bengal as well as India. During the reign of Nawab Mir Qasim, Howrah district came under the rule of British East India Company by a treaty signed on 11th October 1760 between the Nawab and the East India Company. In 1787, East India Company formed the Hooghly district which consisted of the whole of the present-day Howrah district. In the year 1843, the present-day Howrah district was created out of the then Hooghly district.

1.5 River Ganga through Howrah district

Ganga passes through the following CD. Blocks and Municipalities of Howrah

1. Bally-Jagachha CD Block
2. Bally Municipality and Howrah Municipal Corporation
3. Sankrail CD Block
4. Panchla CD Block
5. Uluberia Municipality
6. Uluberia -I CD Block
7. Shyampur-I CD Block

Temple

7. Significance

Historic Significance:

In 1820 the temple was reconstructed by Radhakanta chattopadhaya

Culture Significance:

Annual fairs are held in the complex since its establishment

Social Significance:

Dol is a prominent festival for this Kali Mata temple.

Associational Significance: Maa Chandi is a non-aryan female Goddess of forest, an important Goddess for the agricultural community of the Howrah region. The idol is a stone piece

Local legends: - Originally the idol was huge. The priest had difficulty to offer prayer. So Mother Kali was going down inside the earth and when the face was remaining the priest grabbed it and that is why only the huge face of the idol is visible

8. Architectural Description

Architectural Style: The main temple is rectangular temple with *atchala* style roofing system. There is a mandapa structure in the front of the temple

Site & Surrounding: The temple and mandapa are situated within a walled complex with offset on the front side

Plan: Both the structures are rectangular in plan

Façade: The mandapa is a flat roofed structure supported by a series of arches on all sides

Decorative Feature: Cornice mouldings, Corinthian style column capitals.

Building material and Construction techniques: **Brick and Lime mortar**
Brick masonry structure

HOWRAH MUNICIPAL CORPORATION

Established in 1862

Historical Background

Howrah Municipal Corporation (abbreviated as HMC) is a governmental body, that controls the civic infrastructure and administrative managements of Howrah city, West Bengal, India. This civic administrative body administers an area of 63.55 square kilometers now.

The introduction of the East India Railway in 1854 caused an influx of people in Howrah city. As a result, public nuisance and threat of epidemics arose. So, the Howrah Offence Act was founded in 1857 to ensure prevention of local nuisances. The district magistrate was empowered to prosecute the law breaker with a fine of Rs 200 or rigorous imprisonment of one month. But nothing changed much. Ultimately, the Governor General vouched Section No. 12 of the Act of 1858, by which the Howrah Municipality was formed with the legislative council's due approval. However, the municipal committee was dissolved after a few years. In 1862, Howrah Municipality was reorganized. On May 2, 1864, by the Municipal District Improvement Act III (1864), the Howrah Municipality Board was formed and from August 2, 1864 it started execution vide Gazette Notification. As per the Howrah Municipal Corporation Act of 1980, Howrah became a municipal corporation.

In 1984, Howrah Municipality was upgraded to the status of Municipal Corporation. In 2015, Bally municipality was merged with the Corporation vide notification no. 428/MA/O/C-4/IM-36/2014 dated 26th June,2015..

Bally Municipality was formed, separating it out from Howrah on 31 March 1883. In July 2015 Howrah Municipal Corporation and Bally Municipality were merged. 35 wards of the Bally Municipality were decreased to 16 under the Howrah Municipal Corporation.

7. Significance

Historic Significance:

In the year 1883 a tiny book-bank was set up at the house of Haridhan Goswamy of Goswamy Para Road, but without a name. At the same time, "HOME LIBRARY" was founded in the house of Nibaranchandra Pathak of Pathak Para. Being amalgamated these two institutions was named "BOYS' ASSOCIATION", in the year 1885 and continued its activities at the residence of Haridhanbabu. In the year 1887, the library was shifted to 'Beams Charitable Dispensary' building (presently known as Kedarnath Arogya Bhaban) with a new name "STUDENTS' ASSOCIATION". In the year 1900/1901, "THE

FRIENDS' UNION LIBRARY" of Dingsai Para and "BOYS' READING CLUB" of Goswamy Para merged and carried on at the residence of Bhagabatcharan Bandyopadhyay, as "FRIENDS' READING ROOM". From 30th. October 1903, "STUDENTS' ASSOCIATION" and "FRIENDS' READING ROOM" started functioning as "STUDENTS' ASSOCIATION & FRIENDS' READING ROOM" jointly, but for a few days, owing to the dearth of space in the dispensary, the same was shifted to the 'River Thomson School' (presently known as Bally Santiram Vidyalaya), in the year 1904. On 23rd. September of 1913 the institution was named "BALLY PUBLIC LIBRARY". Once more it was renamed in the year 1933 as "Bally Sadharan Granthagar". On 23rd. February, 1935, the library was registered under the 'Society Registration Act'. The library achieved finally the crown of 'Town Library', as adopted by the State Government, in the year 1981.

- Culture Significance: One of the foremost libraries of Howrah district, marking the beginning of literary culture amongst the indigenous entrepreneurs.
- Social Significance: Helped in providing access to national level information through publications, newspapers, gazettes
- Associational Significance: -
- Local legends: -

8. Architectural Description

- Architectural Style: Transition between neo-classical and art deco styles of late 19th century
- Site & Surrounding: No front offset, located beside the Bally Santiram Vidyalay with an open playground on the rear side
- Plan: Rectangular in plan with central colonnaded entrance
- Façade: Series of louver windows (Venetian or French style slatted windows), circular unfluted columns with doric style capitals at the entrance area
- Decorative Feature: Vertical and horizontal bands highlighting the openings, plain cornice bands
- Building material: Brick and Lime Concrete
- Construction techniques: Brick masonry structure

7. Significance

Historic Significance: Akshay Kumar Datta was also a great author and composed several scholarly books like Dharmaniti, Prachin HinduderSamudrayatra O Baniyyabistar. Charupath was one of his books for the school children that got recognised as mandatory text-book. The book earned him a lot of money and with it he purchased a garden house at Bally, on the banks of the Ganges. The house was named as Sovonuddyan.

Culture Significance: Akshay Kumar Datta set up a laboratory in his house and a botanical garden in the house premises. This house is the witness of the birth of Bharatbarsiya Upasak Sampraday - the magnum opus written by Akshay Kumar Datta. Potraits of Rammohan Ray, Newton and others

used to hang in his study. He also established a geological museum which was later donated to the Indian Museum by him.

Social Significance: The name of Akshay Kumar Datta is glorified as one of the initiators of the Bengal Renaissance. He mastered the subject of Mathematics and had proficiency over several languages including English, French, German, Sanskrit and Persian.

Associational Significance: Akshay Kumar Datta also studied in the Medical College to acquire knowledge on Botany and Zoology. He was the editor of Tattwabodhini Patrika, the most well-known journal of the Renaissance period. Monier Williams, Max Mueller and Rajendralal Mitra were among the people who got impressed with his knowledge and scholarship.

Local legends: - Iswar Chandra Bidyasagar visited this house

8. Architectural Description

Past use:

Temple complex

7. Significance

Historic Significance:

Built in the late 19th century by Purnachandra Daw, the complex belongs to the well-known Daw (or Dawn) family of north Kolkata.

Culture Significance:

It is popularly known as the Rashbari because of the three-day Ras festival usually held in November.

- Social Significance:** The Rashbari complex became the most accessible hub for Hindu religious gathering during the 19th century
- Associational Significance:** The temple complex also had several bighas of land which now has been utilised for providing heritage homestay thereby converting Belur Rasbari into Rasbari Garden House.
- Local legends:** -

8. Architectural Description

- Architectural Style:** Traditional Bengal terracotta temple styles and colonial bungalows with neoclassical element
- Site & Surrounding:** The temple complex houses a nabaratna (nine pinnacled) temple dedicated to Radharaman Jiu, naat mandir along with a beautiful Rasmancha, six aatchala (eight roofed) Shiv Mandir facing the Ganges and two Nahabatkhanas on either side, of which one is renovated. There is also a clock tower in the temple complex.
- Plan:** Each of the temples are square and symmetrical in plan with opening on the river side (east). The high plinths are accessed through a central curvilinear staircase
- Façade:** Traditional Bengal atchala style terracotta temple with one sikhara on the top
- Decorative Feature:** Decorative mouldings, sikhara, decorated pilasters
- Building material and Construction techniques:** Brick and Lime concrete
Brick masonry structures

- 9. Associated Intangible values** The Rasbari was once the hub of activity of the Daw family, with the Ras festival as the prime centre of attraction. Ras is still celebrated and the entire complex is lit up with multi coloured lights. The food and other stalls are all housed outside the temple complex.

7. Significance

Historic Significance:

Belur Math is the headquarters of the Ramakrishna Math and Mission, founded by Swami Vivekananda, the chief disciple of Ramakrishna Paramahansa. The site for this temple was specifically chosen by Swami Vivekananda.

Culture Significance:

This temple is the heart of the Ramakrishna Movement. The temple is notable for its architecture that fuses Christian, Islamic, Hindu and Buddhist art motifs as a symbol of unity of all religions.

Social Significance:

-

Associational Significance:

-

Local legends:

Sri Ramakrishna Paramahansa, Swami Vivekananda, Sarada Devi

8. Architectural Description

Architectural Style:

'A Symphony in Architecture'

Site & Surrounding:	The site chosen for the temple by Swami Vivekananda is right on the holy river Ganges with a clear view of two important places related to Sri Ramakrishna—Dakshineswar and Cossipore, which add to its sanctity. In a spatial tribute to the Ganges, the temple has been located parallel to its flow, sufficiently away to avoid its water from entering during high tides.
Plan:	There is a linear continuous flow of spaces from Nat Mandira (Congregational Hall) to Garbha Mandira (Sanctum Sanctorum) with a circumambulatory path around the Garbhamandira. The plan has a similarity with the plan of a Christian Church. There is one central main entrance and two side entrances from the Nat Mandir, additionally there are two side entrances directly to the Garbhamandira. The temple is built on a 1.75metr high raised platform with a basement below.
Façade:	The central main entrance is defined by the horse–shoe arch supported on the double pilaster at each end, which is the symbol of scripture as used in the Sanchi Stupa gate. The monogram of the Ramakrishna Math and Ramakrishna Mission in a lattice work fills in the horse–shoe fittingly. Hindu religious symbols like elephants, lotuses and a Shivalinga sculptured by Sri Nandalal Bose completes the entrance gate composition. The windows on either side of the entrance gate have suggestion of similar pattern in Moghul and Rajput palaces. The squarish projections at the extreme ends of facade topped by domes suggest of fortifications used in old Moghul Forts. Over all, the entrance facade gives an imposing effect made up in three tiers, springing of arch and pavilions. The rectangular entrance with pairs of columns on sides, a horse–shoe arch with scroll turning upward and a pointed arch on top.
Decorative Feature:	Decorative brackets, intricately carved column capitals, <i>jharokhas</i> , fluted domes, lattice work statuettes of nine planets carved by Sri Nandalal Bose
Building material	Brick and concrete

Past use: Shrine

7. Significance

Historic Significance: Belur Math is the headquarters of the Ramakrishna Math and Mission, founded by Swami Vivekananda, the chief disciple of Ramakrishna Paramahansa. The site for this temple was specifically chosen by Swami Vivekananda. This was the original shrine, where daily worship was conducted from January 1899 till the new temple was consecrated.

Culture Significance: This shrine awakens the hallowed memory of Swami Vivekananda and other direct disciples of Sri Ramakrishna who used to worship, meditate and sing devotional songs here.

Social Significance: -

Associational Significance: To the southeast of the old shrine stands Swami Vivekananda's room. In this room, the great Swami lived, and here he attained Mahasamadhi on 4 July 1902.

Local legends:

8. Architectural Description

Architectural Style: Colonial
 Site & Surrounding: It is situated to the north-east of Sri Ramakrishna Temple.
 Plan: Rectangular in plan with external connecting verandah on both floors, exposed staircase
 Façade: Series of square columns supporting semi-circular arches, full height louvered windows, the square columns are fluted on the first-floor level
 Decorative Feature: Intricate cast iron railings, cornice mouldings, fluted columns
 Building material and Construction techniques: Brick and Lime Concrete
 Brick masonry structure

**7. Significance**

Historic Significance: Belur Math is the headquarters of the Ramkrishna Math and Mission, founded by Swami Vivekananda, the chief disciple of Ramkrishna Paramahansa.

Culture Significance: Swami Brahmananda (1863-1922), whose place among the sixteen monastic disciples of Sri Ramkrishna is only next to that of Swami Vivekananda, was the first President of the Math and the Mission.

Social Significance: -

Associational Significance: Sri Ramkrishna Paramahansa, Swami Vivekananda, Sarada Devi, Swami Brahmananda

Local legends:

8. Architectural Description

Architectural Style: 'A Symphony in Architecture'
Site & Surrounding: The temple is situated along the river side around 15m towards the north of Sri Mayer ghat

- Plan:** The temple is square and symmetrical in plan, built on a raised plinth with approach from all four sides
- Façade:** The two storied structure has on large central dome and eight smaller domes at a lower level. The entrances are through series of multi-foliated arches supported on circular columns.
- Decorative Feature:** Multi-foliated arches, pointed semi-circular domes in *sikharas*, decorative brackets. On the top of the temple dome there is a Chakra (Disc), symbolising Maha Vishnu's weapon.
- Building material and Construction techniques:** Brick and Lime concrete
Brick masonry structure with stone cladding

9. Associated Intangible values

The temple, which stands on the spot where Swami Brahmananda's body was cremated, was dedicated in 1924.

7. Significance

Historic Significance: Belur Math is the headquarters of the Ramakrishna Math and Mission, founded by Swami Vivekananda, the chief disciple of Ramakrishna Paramahansa.

Culture Significance: The temple stands on the spot where Swami Vivekananda's mortal remains were cremated in 1902.

Social Significance:

Associational Significance: Sri Ramakrishna Paramahansa, Swami Vivekananda, Sarada Devi.

Beside the temple stands a bel (bilva) tree in the place of the original bel tree under which Swami Vivekananda used to sit and near which, according to his wish, his body was cremated.

Local legends:

8. Architectural Description

Architectural Style: ' A Symphony in Architecture '

- Site & Surrounding:** The temple is situated along the river banks approximately 40m south to Sri Mayer Ghat.
- Plan:** Swamiji's temple is a two-storeyed structure: upstairs there is a shrine with a marble image of Om in Bengali and on the ground floor is Swamiji's shrine with a marble relief of Swamiji. The shrine floor is below the ground level because that part of the land was very low when the temple was built.
- Façade:** The building is approached two curvilinear flight of stairs inspired from the design at the Villa d' Este in Italy, which was famous for its sweeping and curved stairs. There is one central dome and multiple sikharas at two consecutive levels. Symbolically, the apex of Swamiji's temple is adorned with a nine foottrishula, a trident, which is a symbol of Lord Shiva.
- Decorative Feature:** Multi-foliated arches, curvilinear staircase, Corinthian style column capitals
- Building material and Construction techniques:** Brick masonry structure with stone captial

7. Significance

Historic Significance: This is originally a bathing ghat popularly known as Shri Mayer Ghat. Originally, this massive brick structure consists of 30 steps, the total length being 15 m. and width 6.9 m. These steps are of bricks laid with lime mortar, constructed around 140 years ago.

Culture Significance: -
Social Significance: -
Associational Significance: Holy Mother Saradamoni Devi used to sit here on the steps of the ghat regularly and thus it became a holy place.

Local legends: Sarada Devi

8. Architectural Description

Architectural Style: Stepped ghat typology of the early 20th century
Site & Surrounding: The 40-acre (160,000 m²) campus of the Belur Math on the banks of the Hooghly includes temples dedicated to Ramakrishna, Sarada Devi and

Swami Vivekananda, in which their relics are enshrined, and the main monastery of the Ramakrishna Order. The campus also houses a Museum containing articles connected with the history of Ramakrishna Math and Mission. Several educational institutions affiliated with the Ramakrishna Mission are situated in the vast campus adjacent to Belur Math.

**7. Significance**

Historic Significance:

The Bhot Bagan Math is located at Ghusuri in Howrah. It is a unique monastery with a rare influx of Shaiva and Tibetan Buddhist traditions in its origin. It was constructed in 1776 AD.

Culture Significance:

With the objective to restore the connections between Tibetan Buddhism and India as it was in the 11th - 13th century, the third Panchen Lama conveyed his wish to the English representative Edward Bogle. This is a monument reminding of a special policy of the first Governor-General of India, of the piety of Tashi Lama as exhibited in Bengal, of the work of Pruan Gir and of the Tibeto-Bengal trade which flourished centuries ago and was restored.

Social Significance:

-

Associational Significance:

-

Local legends:

-

8. Architectural Description

Architectural Style:	The complex enclosed with a brick built fence is a Vaishnava Mahanta Graveyard. There are 8 East facing brick built Samadhi sthala of Atchala style and one West facing brick built Sikhara style. There is also a south facing brick built flat roofed temple which is dedicated to Buddhist Goddess Tara. The complex also accommodates a South facing brick built house with 7 arched windows on the upper storey as well as on the lower storey. There is a flat roofed portico on the front part of the house.
Site & Surrounding:	Along the river side, surrounded by open grounds
Plan:	Two storeyed brick structure. Both Hindu and Tibeto-Buddhist gods are worshipped. There is a Tibetan Dungen, a cubiform tomb surmounted by Siva's phallus, which is kept in a low-roofed room having a Bengali inscription on its doorstep.
Façade:	Plain brick façade, square columns, pyramidal roof
Decorative Feature:	Pyramidal roof, cornice mouldings
Building material and Construction techniques:	Brick and Lime concrete Brick masonry

9. Associated Intangible values -

7. Significance

Historic Significance:

Culture Significance:

Social Significance:

Associational Significance:

Local legends:

In the 1880s the British government initiated an agency system splitting Bengal's salt production belt into six agencies who sold the salt through a centralized system at establishments called the Golahs. The Slat Golah at Howrah is one of the largest of the Golahs established in this period

-

The Salt Golah lent its name to Golabari police station, is a massive maze of 244 godowns built by the British to stack salt. -

-

8. Architectural Description

Architectural Style:

Site & Surrounding:

Industrial architecture British colonial era

The 20-acre site is located along the river side with a private jetty point inside the complex. The site constitutes warehouses of multiple

typologies, a guest house and two sheds for temporary storage. The site also has traces of railway tracks connecting all the storage spaces

Plan: Linear colonnaded large span spaces

Façade: Exposed brick masonry. The two-storied guest house is built on series of square columns supporting semi-circular arches

Decorative Feature: Cornice mouldings, mouldings on arched openings, decorative cast iron railings

Building material Brick and Lime Concrete

Construction techniques: Brick masonry

7. Significances

Historic Significance: The Chintamani Ghat is situated at Choura Bustee in Howrah town. The ghat was established by Chintamani Dey.

Culture Significance: Swami Vivekananda worshipped Sri Ramakrishna here.

Social Significance: -

Field photographs taken in February 2020

Associational Significance: Swami Vivekananda came here by boat along with his disciples in 1898. He came to the house of Sri Nabagopal Ghosh, at Ramkrishnapur, chanting the name of Sri Ramkrishna. He worshipped Sri Ramkrishna here. After puja is over and taking his food, he gladly donated his Pagri (Turban) to the wife of Nabagopal Babu. Till now it is kept under their custody with great care.

Local legends: Chintamani Dey, Swami Vivekananda

8. Architectural Description

Architectural Style: British Colonial style
Site & Surrounding: The built pavilion is on the river edge which opens upto the river by a flight of steps
Plan: Pavilion supported on cast iron columns and covered with a pitched roof
Façade: Single-storied pavilion structure
Decorative Feature: Decorative cast iron work
Building material
Construction techniques: Cast iron, brick, corrugated sheet

9. Associated Intangible values -

7. Significances

Historic Significance:

A college for civil engineering was established in Calcutta to meet the requirement of trained engineering personnel for PWD in 1856 which was later shifted to the present Shibpur campus in 1880. It is one of the oldest engineering institutions in the country

Culture Significance:

The site for the college campus was earlier a part of the Botanical Garden. Later the Bishop's College was established which consisted of halls, dormitories and a chapel constructed in the Gothic architectural style.

Social Significance:

-

Associational Significance: The chapel is associated with Michael Madhusudan Dutta

Local legends: -

8. Architectural Description

Architectural Style: The complex, established in the early colonial period has a unique blend of neo-classical, art deco and neo-gothic elements in its architecture

Site & Surrounding: The site was initially a part of the Royal Botanic garden and thus situated adjacent to it, along the river side

**7. Significances**

Historic Significance: The gardens were originally founded in 1786 by Colonel Kyd, containing about 12,000 living plants and over two and half million dried plant specimens in the herbarium collected from all over the world. This is the oldest of all the Botanical Gardens in India.

Culture Significance: It was from these gardens that the tea now grown in Assam and Darjeeling was first developed. Trees of the rarest kinds, from Nepal, Brazil, Penang, Java and Sumatra can be found here. There are towering Mahogany trees, an avenue of Cuban Palms and an Orchid House. Mango and Tamarind trees shade the grassy lawns. Col. Alexander Kyd of the East India Company developed it for the collection of plants, indigenous to the country and for the introduction and acclimatization of plants from foreign parts

7. Significances

Historic Significance:

William Roxburgh was the first salaried superintendent between 1793-1814. The building named after him was constructed around 1794.

Culture Significance:

Although initially it served as Roxburgh's residence, he subsequently constructed a plant house and the library in the dilapidated house opposite it

Social Significance: -
 Associational Significance: Roxburgh was a pioneer in botanical studies in India and he has written "Flora Indica", once the bible for botanists studying Indian flora.
 Local legends: -

8. Architectural Description

Architectural Style: Colonial industrial style buildings, currently in ruins
 Site & Surrounding: Abandoned since the 70s, the Roxburgh House at the Botanic Garden in Shibpur with its impressive portico and wooden spiral staircase is slowly giving in to the vagaries of nature and time.
 Plan: Rectangular building with a extruded circular entrance porch area
 Façade: The colonnaded porch area creates the a defining feature for the building, the openings are spanned by segmental arches
 Decorative Feature: Circular stairwells on either corners, circular columns with Corinthian style capitals, venetian style louvered windows
 Building material: Brick and Lime concrete
 Construction techniques: Brick masonry, I-girders, terracotta tiles roof slab

7. Significances

Historic Significance: The Great Banyan tree is believed to be at least 250 years old, and has been referenced in many travel books, going back to at least the nineteenth century. Early travel writers found it to be noteworthy due to its large size and its unusually high number of prop-trunks.

Culture Significance: It has survived two great cyclones in 1864 and 1867, when some of its main branches were broken. With its large number of aerial roots, which grow from the branches and run vertically to the ground, The Great Banyan is said to appear more like a dense forest than as an individual tree.

Social Significance: -

Associational Significance: -

Local legends: -

8. Architectural Description

Architectural Style: NA

Site & Surrounding: The area occupied by the tree is about 18,918 square metres (about 1.89 hectares or 4.67 acres). The present crown of the tree has a circumference of 486 m. and the highest branch rises to 24.5 m; it has at present 3772 aerial roots reaching down to the ground as a prop root.

ULUBERIA MUNICIPALITY

Established in 1984

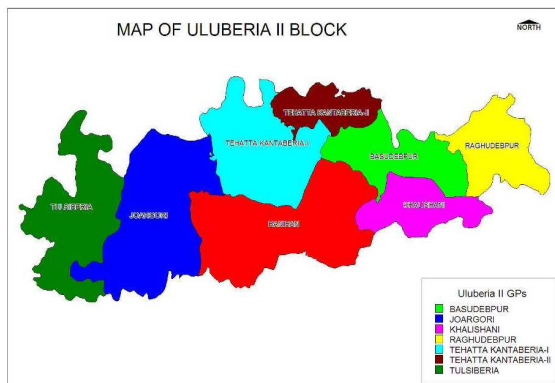

Historical Background

The Uluberia municipality is a very old settlement. The British had created a municipality but it was not sustained. There is a rumor that Job Charnok first landed at Uluberia and not liking the topography, he went to Sutanuty, Gobindapur and Kolkata and established the Kolkata. In the fight for independence against the British rule many leaders including Netaji Subhas Chandra Bose came here. Rani Rasmani, founder of Dakhineswar fought against the British to restore the rights of fishermen from Uluberia. There is also rumor that Lord Chaitnya on his journey to Puri to see Lord Jagannath passes Uluberia in fact Rani Rasmini Devi crated Orissa Trunk Road for the journey

In use

Present use:

Tourist spot

Past use:

Fort

**7. Significances**

Historic Significance:

A point in the extreme south of the district at the junction of the Rupnarayan with the Hoogly. On this point there formerly stood a fort, said to have been built by Lord Clive, which fell into the river owing to the erosion of the bank.

Culture Significance:

Located as it was, at the confluence of three rivers, Fort Mornington Point was probably built to control river traffic, possibly to threaten Dutch and French interests in the area. On October 16th, 1942, a massive cyclone struck Bengal, and the resultant flooding caused heavy damage to the fort.

Social Significance:

-

Associational Significance: On this point there formerly stood a fort, said to have been built by Lord Clive, which fell into the river owing to the erosion of the bank.

Local legends: -

8. Architectural Description
