

## Student Thesis Competition (STC) Season 5 on “Re-imagining Urban Rivers”

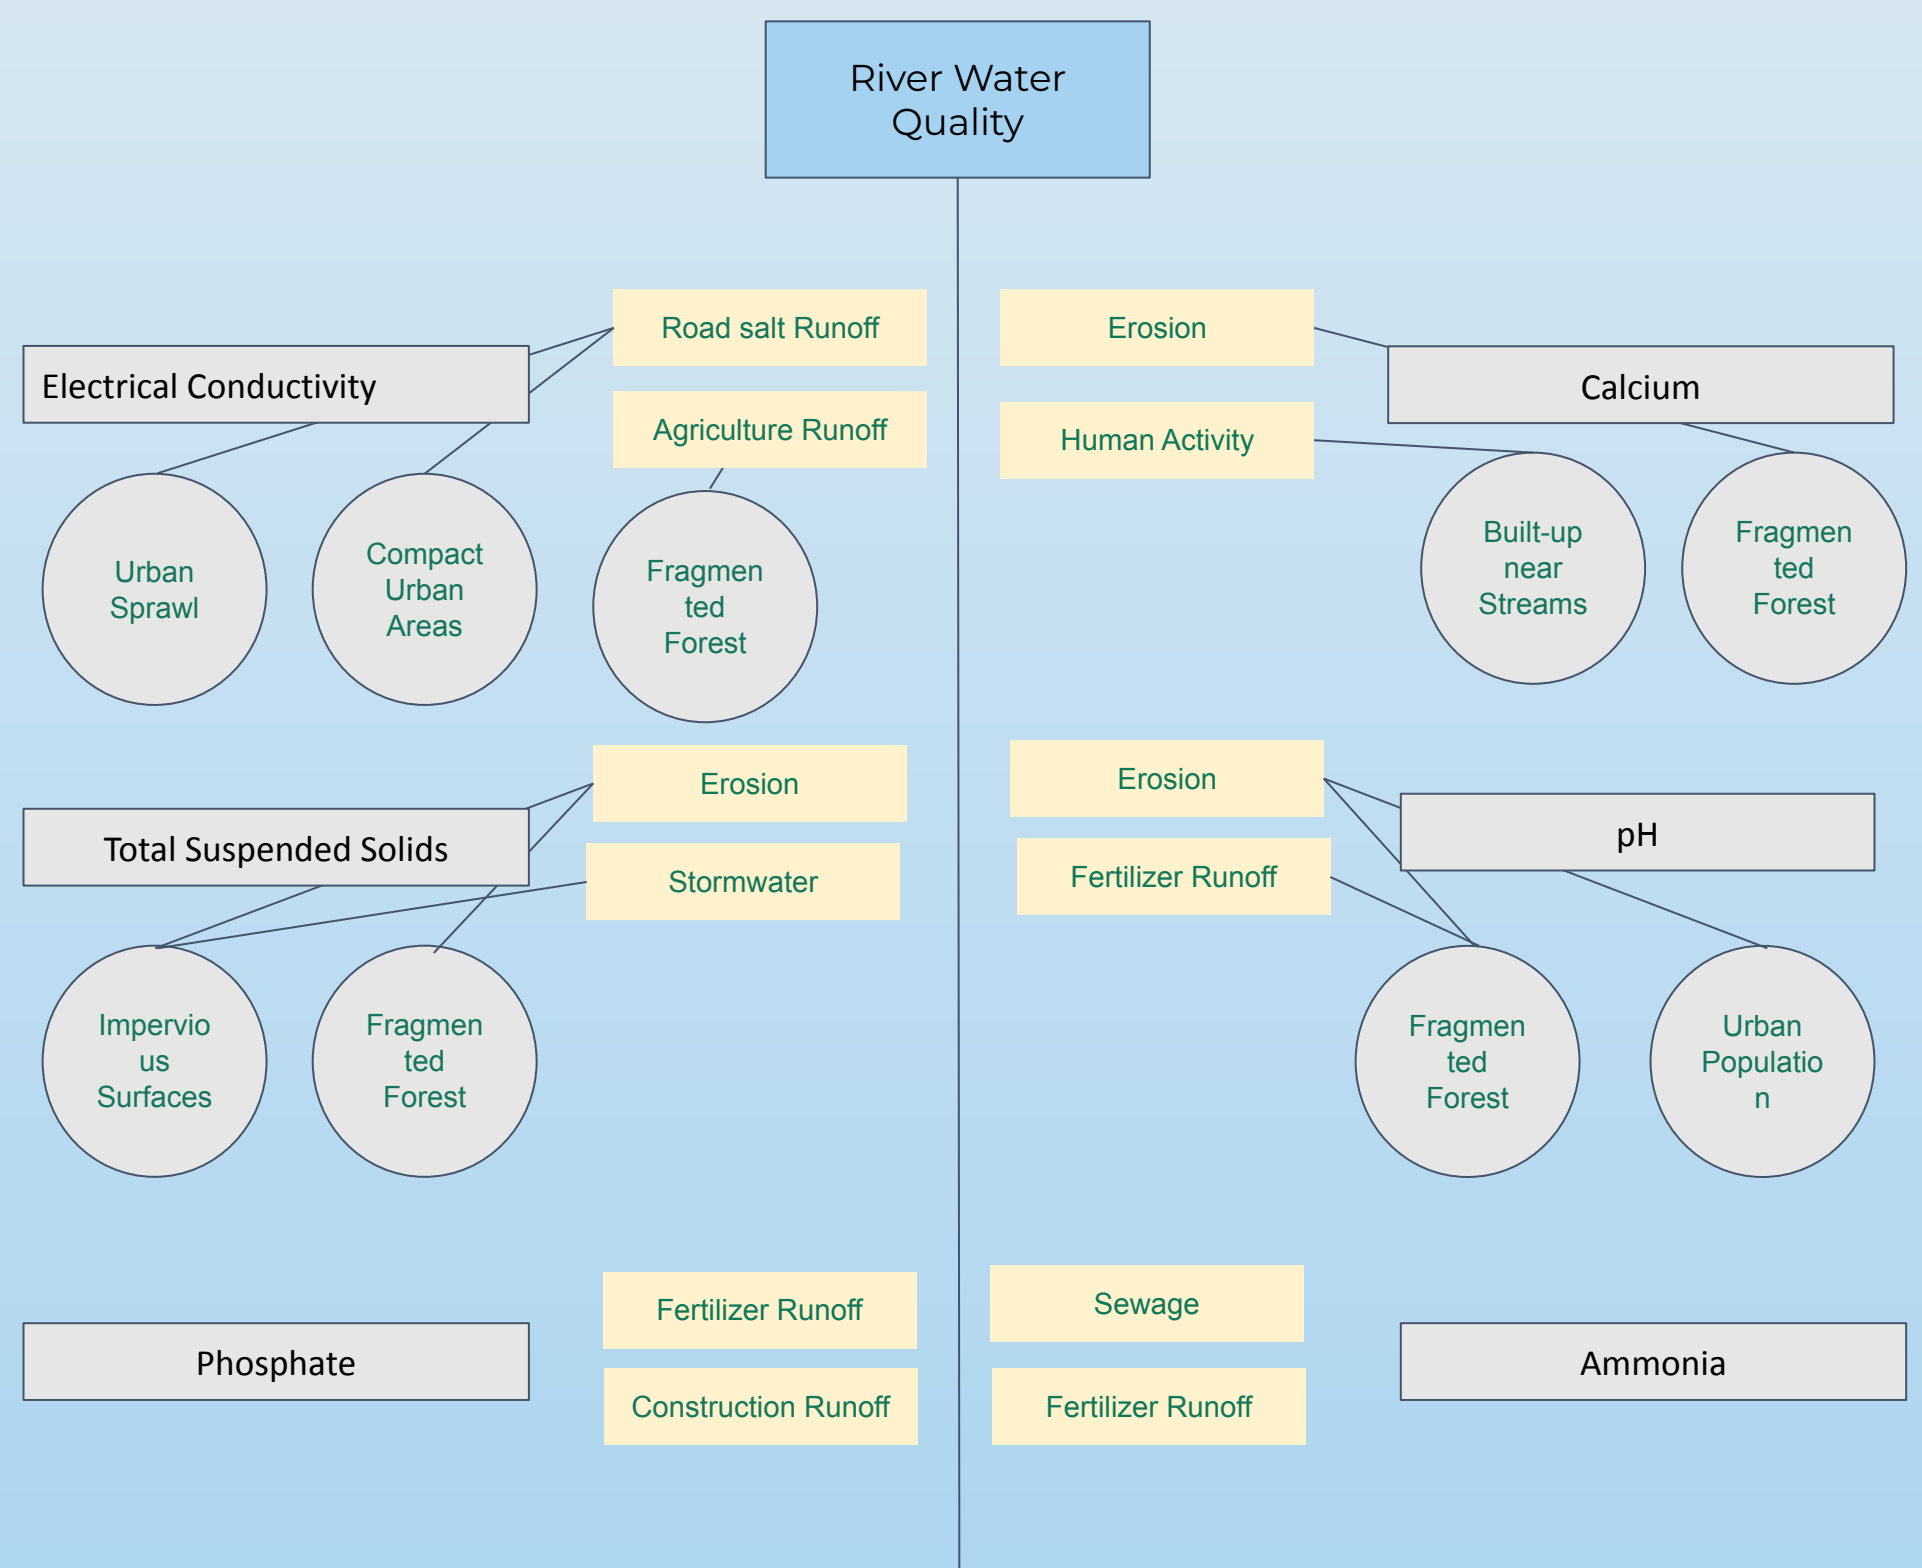

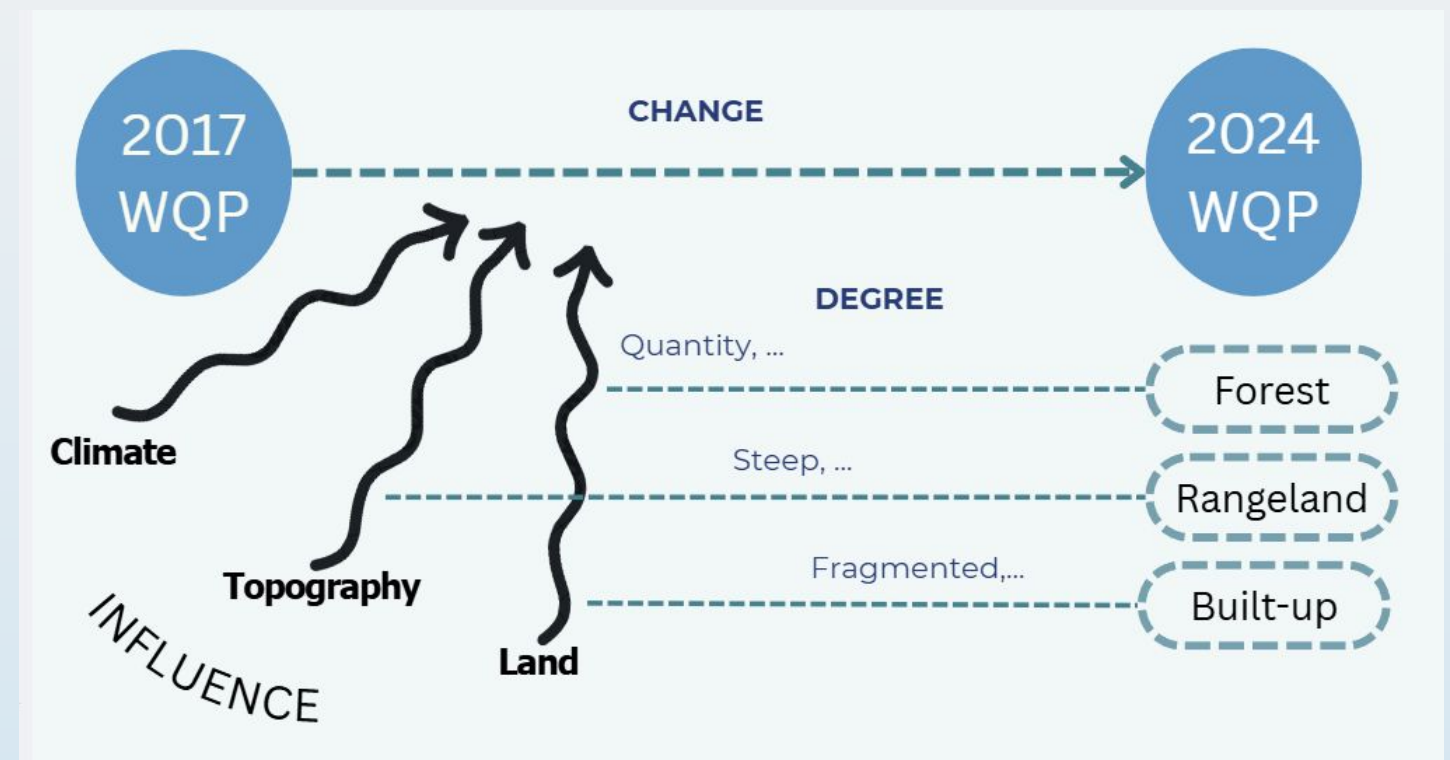

Analysing the Influences of Hilly Landscape Characteristics on River Water Quality: A Case of Tlawng River

Student Name: K. Vanlalroelfamkimi  
Course Discipline: Bachelor of Planning

### Background Synthesis

Quantification  
Data Driven  
Landscape Metrics  
Hills - Extreme Characteristics  
Land - Water Dynamics

### Interventions

Riparian Buffer  
Patch Corridors  
Slope, Forest Zonings  
Monitoring and Management  
Governance
